Aqua World India 2017

“The Renowned AQUA WORLD INDIA : INDO-UK JOINT VENTURE Concept has been well received by the market since its inception in 1997 initially by Brand name Water Asia.”

Aqua World India is an international water technology exhibition in India and the ultimate business networking platform for this dynamic sector. 2nd edition Aqua World India taking place from 21 to 23 August 2017 in the centre of New Delhi, Aqua World will be a unique high-quality event showcasing the latest products and innovations in process, drinking and waste water.

What to expect at Aqua World India

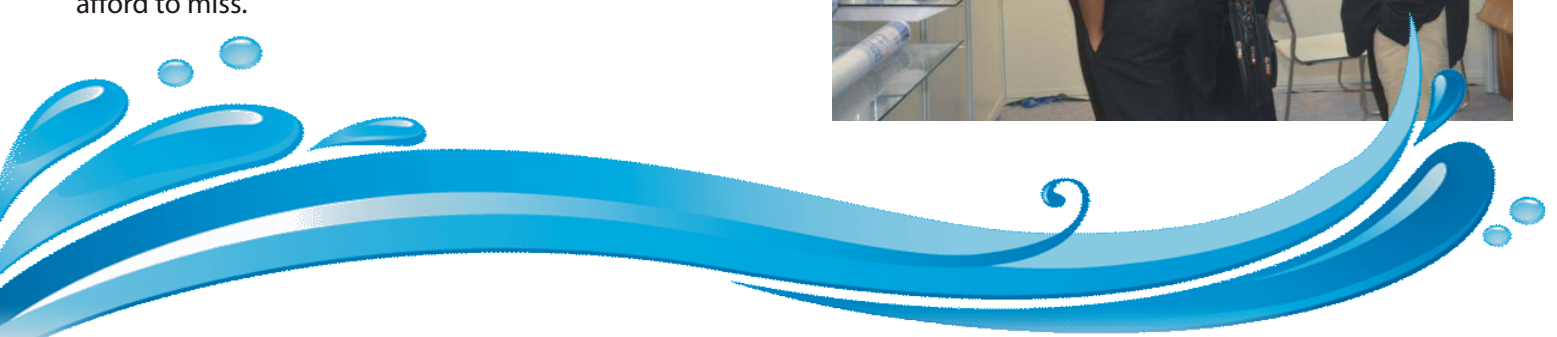

As a one-of-a-kind international, high quality water technology exhibition, Aqua World serves the complete Indian water sector. Aqua World India provides a platform to raise awareness of water supply and waste water treatment problems in India. This is done through promoting international cooperation in seeking solutions for problems by providing a communication platform, and by organising technology and academic exchange programs.

Enter a new world of opportunities

India is one of the fastest growing markets in the world, and holds a highly-skilled workforce. Opportunities arise where:

- As an emerging market, India is facing many water related challenges
- Indian economy is growing at an annual rate of around 8% (approx.)
- India is home to approximately 16% of the world's population
- 7th largest country in the world by area

The rapidly rising population is increasing requirements for drinking water and sewage treatment. Water scarcity means many industries are investing in water recycling systems. There is also a growing awareness in environmental issues, thus pressuring companies to install water treatment equipment. With extensive requirements for water recycling and drinking water purification, the scope for growth is evident in a water market that is estimated to be worth about \$15 billion USD with an annual growth rate of 15 - 20% (approx.). The endless opportunities available in the Indian water market make Aqua World India an event one cannot afford to miss.

Special attention on

- Water resources and its sustainability
- Water and/or Energy
- Water Quality and Water Loss Management
- Waste Water and Sanitation
- Conservation and Reuse

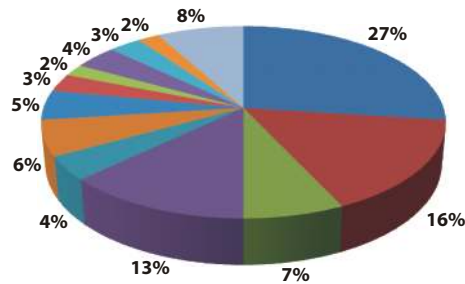

Exhibiting - what's in it for you?

- Meet water professionals from around the world
- Benefit from Aqua World's worldwide promotional campaign
- Interact with highly qualified visitors with decision-making authority
- Start or expand your presence in the rapidly growing Indian water market
- Increase brand visibility and build brand image

Exhibition Segments

- Water treatment systems and equipment
- Transport and storage systems
- Process control technology and process automation
- Point of use
- Research and consultancy

Visitor Profile of 2016

- Manufacturer
- Engineering
- Supplier
- Distributor
- Government, Local (Municipality)
- Dealer
- Water
- Food Processing Industry
- Trade Association
- Soil and Water Treatment
- Water Supply company
- Architect/Designing Organisation
- Others

Exhibitors in 2016 edition

A Large number of Market Leaders and Companies were present at the last edition in 2016. Amongst them were:

- Accord Power Conversion Pvt. Ltd.
- Active Carbon
- Agni Carbon
- American Water Quality Association
- Annapurna Bhaskari Group / Bhaskari Aqua Products Pvt. Ltd.
- AQ & Q Co., Ltd.
- BDS Engineering
- Blue Mount / Delight Filtration Pvt. Ltd.
- China Protec Environmental Co. Ltd.
- Cosmos Water Solution Pvt. Ltd. / Cloud International LLP
- CSB Precision Engineering (M) SDN BHD
- CSE India Pvt. Ltd.
- CT&S (Creative Technology & Solution)
- Darshan Trade Links
- Decent Enterprises
- Duplex Appliances Pvt. Ltd.
- Elpron Exchange Water Engg. Pvt. Ltd.
- Euroforbes
- Flowguards
- Ginni Filaments Ltd.
- Hangzhou E-mem Environmental Technology Co. Ltd.
- Henan Wanbang EP Tech Co., Ltd.
- Hi-tech Sweet Water Technologies Pvt. Ltd.
- HM Digital
- Hunan Ovay Technology Co. Ltd.
- Hydranautics
- Jay Metals
- Jove & Klar Engg.
- Joystick Bio Care
